ᚼᛁᚾ:ᚠᛁᚴᚢᚾᛏ:ᚼᚱᚦ (The Old Word)

This is a **location puzzle**. It will require information from near the Viking stop, and you should not check out until you have confirmed you have that information (or have solved the puzzle).

*We've managed to piece together some old notes from an archaeological survey of the area. Of course it isn't translated... though some words may sound similar to their English counterparts. It also seems like a key figure is missing, maybe you can find the **monumental** evidence somewhere nearby!*
