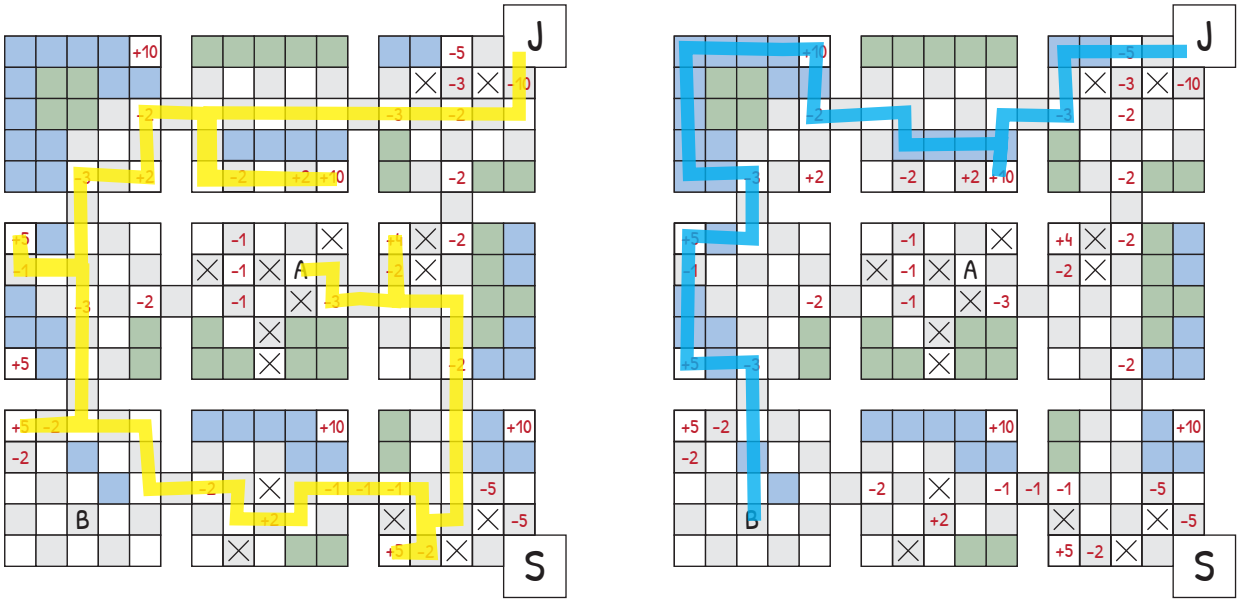
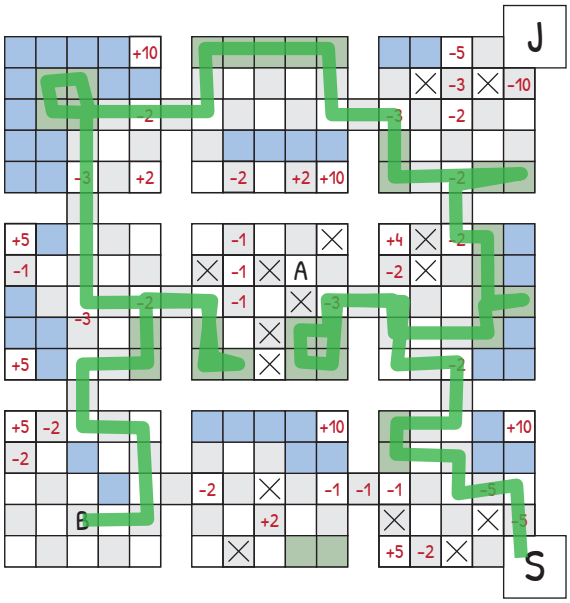
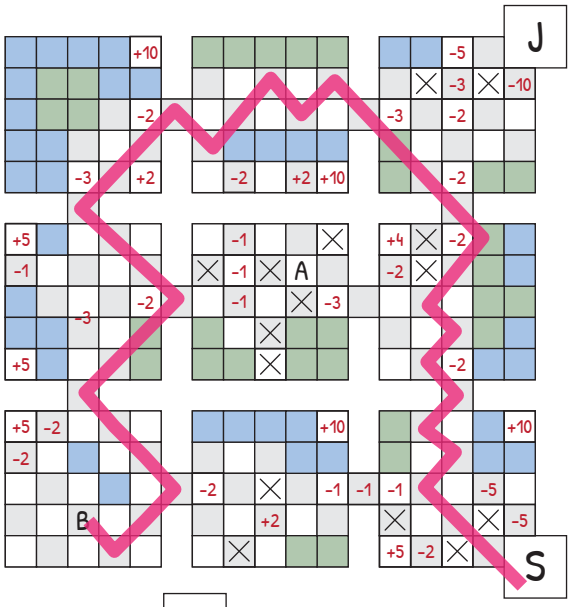
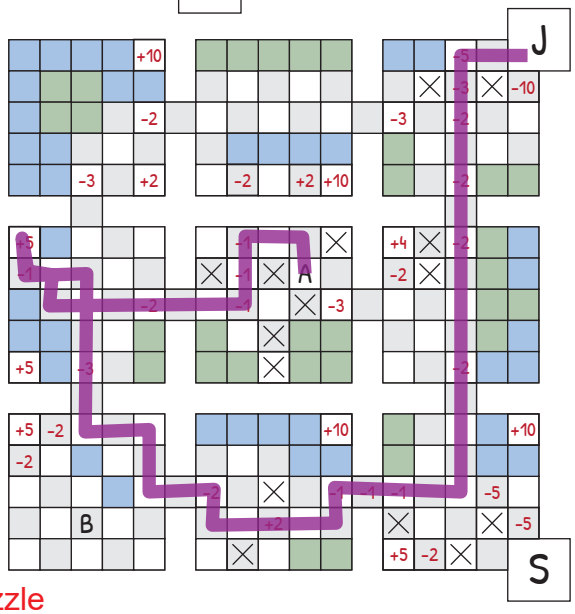
Feral Meowtlaws - SOLUTION

Each cat has a unique path that writes out a letter









NOTE: In the version printed at BAPHL in person, there were two errors

1. Two grass blocks in the top right section were missing, making Ally impossible
2. There was is degenerate path for Tabitha that was not caught in testing, and did not look like a “d” (or much of a letter at all)

Apologies and note to self not to try to set 5 unique paths in one puzzle again
